

AI BlogNest API

AI-Powered Blog Management and Content Generation REST API Platform

PHASE 8: PROJECT DEMONSTRATION

Role	Team Member
Team Leader	Praveen Kumar M
Team Member 1	Prabu R
Team Member 2	Muralidharan S
Team Member 3	Yadhava Moorthi Y

Submitted as a phase-wise project submission.

1. Demonstration Setup & Prerequisites

The demonstration verifies end-to-end execution of the REST API endpoints using an API testing client (Postman / Thunder Client) connected to the running local server (<http://localhost:5000>) backed by MongoDB and Google Gemini API services.

2. Live Workflow Walkthrough

Step 1: User Registration & Authentication

- **Request:** POST `/api/auth/register` with user payload (Name, Email, Password).
- **Response:** 201 Created returning registered user profile.
- **Request:** POST `/api/auth/login` verifying credentials.
- **Response:** 200 OK returning signed JWT Bearer Token for header authorization.

Step 2: Core Blog Management (CRUD)

- **Request:** POST `/api/blogs` sending blog payload with `Authorization: Bearer <JWT_TOKEN>`.
- **Response:** 201 Created confirming blog record creation in MongoDB.
- **Request:** GET `/api/blogs` to retrieve all published blog posts.
- **Response:** 200 OK returning structured JSON array of blog documents.

Step 3: AI-Powered Features Demonstration

- **Request:** POST `/api/ai/generate-blog` supplying a topic prompt (e.g., *"The Future of Artificial Intelligence in Web Development"*).
- **Response:** 201 Created returning AI-generated article title, outline, and full body text synthesized via Google Gemini.
- **Request:** POST `/api/ai/summarize` supplying a long-form article body text.
- **Response:** 200 OK returning a concise bulleted summary response.

3. Demonstration Execution Summary

Demonstration Phase	Endpoint Executed	Key Verification Point	Status
1. Auth Flow	POST /api/auth/login	JWT Token generated & attached to auth header	Success
2. Blog CRUD	POST /api/blogs	Protected route verified, blog saved to DB	Success
3. AI Generation	POST /api/ai/generate-blog	Gemini SDK prompt synthesis & JSON structure	Success
4. AI Summarizer	POST /api/ai/summarize	Text payload processing & response synthesis	Success
