

# AI BlogNest API

AI-PoweredBlogManagementand Content Generation REST API Platform

## PHASE 6: PROJECT TESTING

| Role          | Team Member       |
|---------------|-------------------|
| Team Leader   | Praveen Kumar M   |
| Team Member 1 | Prabu R           |
| Team Member 2 | Muralidharan S    |
| Team Member 3 | Yadhava Moorthi Y |

Submitted as a phase-wise project submission.

### 1. Testing Approach

Testing was performed using **Thunder Client** (VS Code extension) and **Postman** to validate all RESTful HTTP routes. Testing verified status codes, schema structure, JWT authentication guards, and response payload format ting.

### 2. Authentication Tests

- **User Registration ( ` POST /api/auth/register ` ):** Transmitted user payloads and confirmed database user persistence with 201 Created status code responses.
- **User Login ( ` POST /api/auth/login ` ):** Verified credential authentication and confirmed returning signed JWT access tokens with 200 OKstatus code.

### 3. Material and AI Tests

- **Blog Creation ( ` POST /api/blogs ` ):** Validated blog post creation while supplying ` Authorization: Bearer ` in headers, returning 201 Created.
- **Fetch Blogs ( ` GET /api/blogs ` ):** Tested public/author fetching of published articles returning an array of post objects with 200 OK.
- **AI Blog Generation ( ` POST /api/ai/generate-blog ` ):** Verified sending prompt topics to Google Gemini SDK and receiving generated blog JSON payloads.
- **AI Article Summarize ( ` POST /api/ai/summarize ` ):** Tested article body text summarization, returning synthesized summary abstracts.

### 4. Testing Summary

| Test Case         | Method & Endpoint       | Expected Result               | Observed Result |
|-------------------|-------------------------|-------------------------------|-----------------|
| User Registration | POST /api/auth/register | 201 Created with user payload | Passed          |

| Test Case          | Method & Endpoint          | Expected Result                    | Observed Result |
|--------------------|----------------------------|------------------------------------|-----------------|
| User Login         | POST /api/auth/login       | 200 OKwith JWT Token               | Passed          |
| Create Blog Post   | POST /api/blogs            | 201 Created with post object       | Passed          |
| Get All Blogs      | GET /api/blogs             | 200 OKwith post array              | Passed          |
| AI Blog Generation | POST /api/ai/generate-blog | 201 Created with generated content | Passed          |
| AI Text Summarizer | POST /api/ai/summarize     | 200 OKwith concise summary         | Passed          |
